TERMS AND CONDITIONS

1. As per the regulations, the client should obtain an approval from WARMA.
2. Accessibility of drilling rig to the site has to be assured by the client. Client will take responsibility in case of any damage to the client and/or clients neighbours properties.
3. STS Drilling neither guarantees finding water nor the quality or quantity of water the borehole will yield.
4. Borehole is guaranteed up to ..... months from the date of drilling on structural defects only.
5. There will be NO guarantee for old borehole services.
6. There should be a representative from the client at the drilling site at all times during drilling.
7. Client must collect the borehole report 30 days after completion of borehole drilling.
8. STS Drilling reserves the right to stop drilling at any depth if geological conditions are not favorable.
9. Validity of the quotation is .....days
10. STS Drilling shall NOT be held responsible for boreholes drilled successfully and afterwards the water yield or quality changes. This can be as a result of several geological, climate, and other factors that subsequently affects availability of ground water.
